B-Fly

- B-Fly is the new dust-pan and squeegee system that allows you to clean any type of dirt, solid or liquid, without having to bend or touch the spillage.
- Ideal for bars, restaurants, canteens and hospitals.
- Easy to clean and efficient in picking up waste because it adheres perfectly to the floor.
- You only have to detach the bag to get rid of waste avoiding contact with hands and unpleasant odours as with normal dust-pans.

	Cindy - Professional dust-pan Capacity: 15 L	23x94 cm	00005170	4

Cindy

- Thanks to its handle with grip at an adjustable height, it can easily be seized in various positions.
- With two 60 mm wheels.
- It is ideal to collect waste outdoors, where the wind may cause some problem with traditional dust-pans
- Thanks to its capacity (15-l), it can hold bulky waste (i.e. paper, bottles, leaves) which are easily collected thanks to its swing lid and to its rubber strip perfectly adhering to any kind of floor.
- Easy to empty thanks to the handle at the bottom.

Deep+

System Reduce cross contamination

TTS microfibre removes up to 97% bacteria, improving hygiene

The tiny fibres are able to penetrate the microscopic surface pores of most floors.

TTS colour coded cleaning materials and equipment

The adoption of a standardised colour coding system improves the safety of hospital cleaning, ensuring consistency during service and providing clarity to the staff. TTS has been the first to introduce the Multicolour system.

Velcro

- with plastic holes to insert cloths
- ABS removable velcro strip

How to use Velcro

- Placement of the spare mop head

- Detachment of the dirty mop

- Velcro system is **ideal dry for dusting and wet for washing** and disinfecting areas with high cross-contamination risk.
- Spare mops **can be easily changed** without touching the dirty area
- **Replaceable strips** available
- Used with **pre-soaked ready-to-use cloth eliminates all the rinsing and wringing tasks** that strain your cleaners' wrists and backs

	Saniflex - Floor washing tool with graduated bottle, capacity 1,5 L	50 cm	00000901	1

	Saniflex - Disinfection cloth for Saniflex Cotton and synthetic fibres	65x16,5 cm	00000773	100

Saniflex - How to use it

- Ideal for floor disinfection
- With graduated bottle, easy to fill up
- The knob above the handle lets you regulate the amount of solution which has to be applied on the floor
- The special shape of the plate distributes evenly the solution onto the cloth, in this way the chemical product does not get wasted

BIO System

Features

ERGONOMIC

ECOLOGIC

EASY TO USE

ERGONOMIC

NO BENDING

Equipped with ergonomic grip that makes it easier to take and use the tool, always maintaining a proper position.

REDUCTION OF WEIGHT LIFTING

There are no more mop buckets that have to be lifted and no more mops to rinse or wring out.

SAFETY

ECONOMIC SAVING

BOTTLES

- > MADE IN PLASTIC
- > TRANSPARENT
- > GRADUATED SCALE
- > CAPACITY 0,65 L AND 1 L
- > HERMETIC TO AVOID EVAPORATION

REMOVABLE AND INTERCHANGEABLE

For easy cleaning and for convenient pouring of the chemical

ECOLOGICAL

EASY TO CLEAN

Easy cleaning of the tool, no need to disassemble it.

REDUCTION OF CHEMICAL

The bottle is easy to fill and chemical can be perfectly dosed, with considerable time and cost saving. This system allows you to distribute solution directly from the handle

COLOUR-CODED BOTTLES

The bottles are available in different colours, to allow the operator to diversify solutions according to the different environments to clean, using a single tool. This means a considerable saving of time.

Floor squeegee

These tools have an easy-to-clean plastic support, reinforced with a rod, and a double rubber element that comes into direct contact with the floor, pushing water away. The pin stops the rotation and thanks to the ringnut any handle with a diameter from 20 to 24 cm can be applied.

Clean & Go

Dike

Single white blade to use in health care and food industry

For the universal cleaning of floors and any kind of surfaces

EASY TO USE

HIGH QUALITY

ECOLOGY

Floor squeegee

Thanks to the rubber and the polypropylene support, water is pushed forward with no dripping left on the floor.

Made of one single rubber blade.

Structure in polypropylene.
 Hygienic and easy to clean, as it has no holes. **Can be sterilized up to 120°C**

Scraper

Supplied with polypropylene scraper to remove easily any possible crusting on surfaces
