# Washing Systems

## Ó-Key

### Washing System

- Adjustable fixing hook
- With anti-splash front side
- No bottom means saving time during washing, as both rinsing and wringing take place with one single simple movement inside the wringer, without any unpleasant dripping (Picture 3 - 4 - 5)
- With twisting handle holder (Picture 1 - 2)
- Studied to effectively wring flat mops and mops

## Washing Systems

### Hermetic

### Washing System

"Hermetic" has been developed as a key element of the pre-treated system where mops are impregnated directly in the washing room. This one step system avoids waste of chemical, reduces time needed for cleaning procedures, improves the cleaning result by reducing at the same time the cleaning costs. The bucket "Hermetic", made entirely of polypropylene material, is equipped with an handle for an easy transport of the bucket. Its shaped border fits easily to the lid whose gasket fixed under the lid assures hermetic closing.

Placement of cloths

Pour the solution

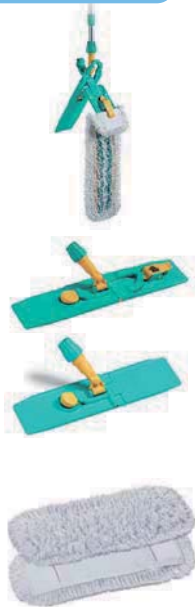

Spread the solution

## Clean & Go

### Blik-Wet Disinfection

### Velcro

### Bio

To order the trolley with flat wringer you should add the number 2 in the article number. Es. 00006085 → 00026085  
 To order the trolley without wringer you should add the number 1 in the article number. Es. 00006085 → 00016085

# ACTION<sub>pro</sub>

Functionality and clean are worth twice

Wash & Go

30 L

### Features

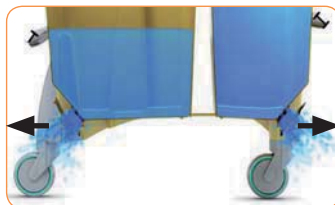

ACTION PRO can hold 30 litres, divided into cleaning solution and rinsing water. The front bucket holding the cleaning solution has a graduated scale in litres and gallons, to dose water and cleaning solution more easily.

The bucket has been designed to be piled up, with remarkable volume reduction and a sensible economic saving both in stocking and transport costs.

### Total outflow

Back and front drain-plug

## Using the bucket Action PRO with Dry wringer

- **New double bucket** to separate rinsing water from the detergent solution
- **Equipped with two drain-plugs** to empty liquids out, one in the front and one at the back of the trolley
- **Double handles**
- **Ergonomic:** higher than the traditional buckets it allows the operator to work while standing
- **Practical and handy** it cuts working time and saves detergent solution
- **Piling:** thanks to removable 80 mm weels
- **Eco-friendly:** completely made of polypropylene, non-rusting, robust and entirely recyclable.
- The bucket fits **Tec, Dry, Ó-Key** wringers
